00:40:34 Domenic Georgio: on 1 min chart do you need 3 new lows before buying?

00:40:48 Leigh B: i like to use the consolidation high of the pattern, wait for market to come back to that or above.

00:43:01 Ben Birdsell: Yes, agree Leigh, set your order above consolidation high and let market come to you.

00:43:31 Leigh B: that was about your GC example

00:43:44 Leigh B: of the consolidatiion area

00:44:01 Leigh B: its the meaning, get on board.

00:45:45 Leigh B: hi ben, yes, the momentum will explode thru as trapped traders reverse.

00:46:26 Ben Birdsell: About the EMA, understand you have normalized to be the same lines on the 30 and 8 min charts. Have you looked at using the 8 and 21 EMA on your 1 min as well, also keep the 240 and 630 EMA? I like the 8 and 21 EMA and have used it a lot.

00:46:34 Heinz Lenhard: ok thx

00:50:49 Domenic Georgio: yes thank you need patience

00:54:29 Pauline Kong: Good morning Craig and everyone!

00:54:31 Ben Birdsell: Craig, I really like this stack, great for use with price action.

00:57:59 Frank Slegtenhorst: You count from the new higher high

00:59:45 Ben Birdsell: Understand, your price pattern should start with the lowest low, otherwise you violate the pattern.

00:59:58 Domenic Georgio: thanks for that

01:11:02 Leigh B: thanks craig, great stuff..

01:11:11 Domenic Georgio: i like the stacks but liking the other tradeing action tips you give maybe a little more
